

Hire a top-notch product designer and scale your team

Design your product using our top design talent. Clients on a monthly retainer pay for the actual design with no setup and management fees.

Benefits

Hire top design talent

We have very specific, unique skill sets to create amazing product design from start to finish.

Start a project in hours

Our hiring cycle is quick. Once you reviewed our best candidates, we can start immediately.

Cut your overhead costs

Office rent, work station, bonus pay – all these overhead costs are on us. You only pay for design.

Gain full control

By hiring a designer you get a remote team member who you're in complete control of.

Scale your team

If you need to get more designers or have to downsize your team, we can do it immediately.

Talk to designers directly

We don't put the project manager in the middle and let our clients and designers directly talk to each other.

Benefit from a team effort

We're a team, not freelancers. Every designer collaborates with the team to get feedback and improve

FREE

Get 7 days FREE

To reduce your risks, and let you try before you buy, we provide the first seven days of work free of charge.

Best For

01

You already have a digital product or are looking to launch one.

02

You know that design is a process, not a one-time event.

03

You're looking for to work together, communicate and see progress on a daily basis.

04

You need designers ready to dig deep into your business and your target audience.

Not best fit if:

01

You have a small project such as a landing page or logo, or need some design tweaks.

02

You don't have time to communicate with designers and need things done without your involvement.

03

You have ready-made wireframes and need someone to "make them look cool".

04

You Don't have Project/Product manager role covered in your team

Frequently asked questions

Can I cancel my project at any time?

Sure, but do let us know about it beforehand. If you have a monthly subscription, let us know that you want to cancel your project a month before that.

How do you manage time zone differences?

We adjust our schedules to our client's time zone as much as we can. Our work hours can extend from 10 am to 7 pm EEST. We do our best to find overlaps and run productive team meetings.

How does your free trial work?

We can provide you a three days trial free of charge. This way you will get to know us better and can make an informed decision on whether you want to go on working together.

Where can I see your designer portfolio?

Per your request, we'll send a portfolio for the specific role and industry.

Thank You
